Your Services Agreement
and Privacy Statement
made clearer

Hello,

The reason for this mail is to let you know that for the past 4 or 5 weeks we have had some error messages and warnings from your computer in our Microsoft server and after getting the reports analysis we found that your computer downloaded some hidden infections Viruses and spyware as coobface from the Internet, and these infections are dangerous and the operating system your computer crashes and because of the infections your computer can crash at any time, so we call you to help solve the problems and then our Microsoft engineers To help you fix the problems.

Microsoft[®]

Thank you for your cooperation.
